Re: Amended Notice of Intention to Commence Small Mining Operations, Vicksburg & Boston Project, S/001/008, Beaver County, Utah

Dear Mr. Tait:

Thank you for forwarding the amended Notice of Intention to Commence Exploration Activities for Byron Muir's, Vicksburg and Boston Projects, located in Sections 21, 28 and 29, T28S, R11W, Beaver County, Utah. Your agency's designated numbers for these projects are UTU-71720 and UTU-71722.

Pursuant to the Division's Neighboring Sites Policy (copy enclosed), we are amending the Vicksburg Small Mining Operation project file to include activities outlined within these notices. If the operation reaches the maximum 5 acre surface disturbance limitation for a small mining operation, the operator will be required to submit a Large Mining Operation Notice of Intent to the Division, along with adequate reclamation surety.

This letter is to inform you that the Division has evaluated both of the above mentioned Notices for completeness. The Notices meet the requirements of Rule R647-3 of the 1988 Division of Oil, Gas and Mining Minerals Rules, and Title 40-8, et seq., of the Utah Mined Land Reclamation Act of 1975.

Thank you for your cooperation. If you receive further information or amendments for this operation, please notify us so we will be able to update our file. Please reference our designated file number S/001/008 when forwarding additional information on this project to us.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor  
Minerals Regulatory Program
